

User Guide for limtan App for iPhone

Overview

Trading gets easier with limtan.com.sg iPhone application. Enjoy greater accessibility and instant connections for all your trading activities

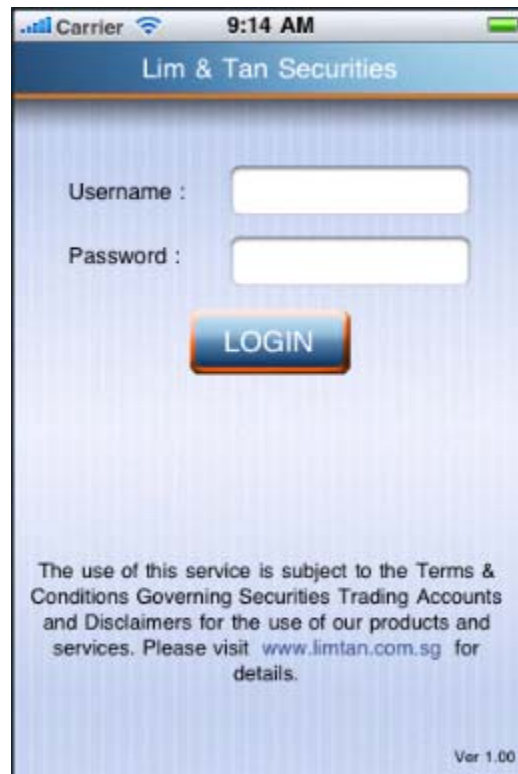

You can now be in control of your stock trading in the local equity market. Trade shares anywhere, view real-time live prices, manage watchlist, check order book, search for stocks, view live market data and more are now available via your iPhone.

1. Login to limtan iPhone App

To download the application, please visit Apple App store and key in “limtan” to get app and install.

Please note that iPhone User ID and Password will be the same as that for your Internet and mTrade channels of your Online Trading Account. As such, you will only be able to access one channel at any given time.

2. Watchlist

Upon login, the **Watchlist** you have created on your Internet trading system will be shown. Adding or removing counters via your iPhone will also change the Watchlist for the Internet and mTrade channels.

You can maintain up to 5 Watchlists to display a total of 50 counters in each.

The screenshot shows the 'Watch List' app interface on an iPhone. The main screen displays a table of stock data with columns for 'Stock', 'Last', and 'Vol'. The table lists several stocks including CITYDEV (SGX), Fortune Reit HK\$ (SGX), Genting SP (SGX), Informatics (SGX), Noble Grp (SGX), SingTel (SGX), and YangzijimBLECW10 1102 (SGX). A settings gear icon is in the top left, and a 'Place Order' button is in the top right of the table. A bottom navigation bar includes 'Watch List', 'Top 20', 'Orders', 'Indices', and 'More'.
